SUMMARY

Aspiring Computer Science professional with hands-on experience in Python, C++, SQL, and web technologies. Strong foundation in problem-solving, software design, and collaborative project work, eager to apply technical expertise in real-world environments.

SKILLS

- Programming: Python, C++, JavaScript, PHP, MIPS Assembly
- Web Development: HTML, CSS
- Tools & Platforms: Git/GitHub, VS Code

PROJECTS

- Built small web features using HTML/CSS/JS; practiced responsive layouts and basic form validation.

PROFESSIONAL EXPERIENCE

Phan Removals — Removalist | 2018–2022

- Led 12+ residential moves per week with zero reported damages.
- Optimized logistics strategies to complete jobs efficiently under pressure.
- Delivered high customer satisfaction (95%+) through clear communication.

Toll Group — Warehouse Operator | 2020–2021

- Streamlined sorting/inventory workflows, boosting team productivity by ~15%.
- Maintained accurate stock counts across 100+ daily items to ensure smooth supply chain operations.
- Took ownership of assigned inventory zones, ensuring accurate handling and accountability for high-value goods.

Newton Family Day Care — Childcare Assistant | 2021–2024

- Safely transported children on time-sensitive school runs while ensuring compliance with safety protocols.
- Planned and facilitated structured daily activities to promote early learning and engagement.
- Partnered with parents to support progress tracking and positive behavioral development.

EDUCATION

Western Sydney University — Bachelor of Computer Science | 2023–2025

Aoyama Gakuin University — Semester Exchange | Mar 2025 – Jul 2025
